DETAILED ACTION

1. Amendment filed on May 11, 2004 has been entered.
2. Claims 1-9 are presented for examination.

Priority

3. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 10/249,363, filed on 04/03/2003.

Reasons for Allowance

4. Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1-9 include allowable subject matter since the prior art made of record and considered pertinent to the applicant's disclosure does not teach or suggest the claimed limitations. Tanaka et al. (U.S. Patent No. 6,026,025), and others, does not teach the claimed invention having a method of operating a flash memory device comprising a step of applying a second positive voltage to the select gate, applying the second positive voltage to the first control gate, applying a third positive voltage to the second control gate, applying a fourth positive voltage to the second source/drain region and setting the first source/drain region and the P-well region in a floating state so that data can be read from the first memory cell, and erasing data from the first memory device of the flash memory device.
